

Global Day of Coderetreat

Sponsor Packet

Coderetreat is a day-long, intensive practice event focusing on the fundamentals of software development and design. By providing developers the opportunity to take part in focused practice, away from the pressures of 'getting things done', the coderetreat format has proven itself to be a highly effective means of skill improvement. Practicing the basic principles of modular and object-oriented design, developers can improve their ability to write code that minimizes the cost of change over time.

The purpose of Global Day of Coderetreat to raise awareness of coderetreat and bring people together from all over the world. On December 3rd, 2011, we will see 32 hours where there is a coderetreat event taking place somewhere in the world. Coordination and sharing between timezones will be done over video; overlapping coderetreats in differing timezones can virtually 'pass the baton'.

To date, there are approximately 50 participating cities spanning 4 continents with an average of 20 participants per city. As a sponsor, your brand will be seen by 1,000 interested, engaged, skilled and community-connected software developers who use their spare time to improve their skills.
